STATEMENT

On March 21, 2002, applicants filed a Notice of Appeal, received in the PTO on March 29, 2002, thereby setting the first deadline for an Appeal Brief as May 29, 2002. The final due date for an Appeal Brief, with extensions of time, was October 29, 2002. On May 17, 2002 applicants filed a Second Response after final. An Advisory Action was issued on June 11, 2002. Despite the belief by applicants that the Response filed on May 17, 2002 resolved the remaining issues, the Advisory Action indicated that the amendment was not entered as constituting new matter. Applicants investigated the issue raised in the Advisory Action and conducted telephone conferences with the Examiner.

In an effort to gain allowance of the application by the final deadline of October 29, 2002, applicants worked with the Examiner to resolve issues of claim language, and on October 24, 2002, the Examiner apparently sent a facsimile Examiner's Amendment to applicants, but it was not received, and it was re-sent on October 31, 2002. At that time the case had become technically abandoned.

On November 5, 2002, applicants conducted a detailed telephone interview with

the Examiner, and discussed the PTO policy relating to percent hybridization language in nucleic acid claims, as well as a related Federal Regulation Notice governing these issues. In the intervening time, applicants have been considering the options for proceeding with this case so as to avoid the previous enablement issues under 35 U.S.C. § 112 as raised by the Examiner and as further discussed with her. Applicants have also investigated the Federal Regulation guidelines regarding the policy discussed by the Examiner.
